Many years ago, I worked as a sales trainer in one of the major Banks telecommunications centers. Yes, that was the time when those centers were all across America. This has been outsourced and is now almost 100% offshore. This Bank had a massive software platform called How To. Kind of like Google on steroids. You could find anything you wanted from the system at the snap of your fingers.

I thought about this when

considering the concept of bet on yourself. We are all living in a rapidly shifting world. Many people are feeling the stress of their world being totally upside down. It is a shock to the system that what feels like almost overnight the world you knew became a Twilight Zone episode. And this is why it is so important to become self-reliant. Yet the major advantage is the fact that America is still the richest nation in the world and has the greatest selection of opportunity in the world. Any American can start a business, buy a business, create value for others and earn whatever they desire. To the scarcity driven victim mindset this is nonsense. In that mindset the world has a limited number of opportunities and resources. Abundance is impossible so the best thing to do is rely on others and exchange time for money. This will never produce financial independence and will assure the lifetime of dependency.

On the other side of the mindset is that of abundance. The unlimited expansion of opportunity, creation and ideas. Helping others by adding value that creates profit. It starts with business. The obstacle is education and messaging that has been permeated by scarcity, dependency, security. That message has been about exchanging time for money, remaining unaware of talents and skills. Consistently accept less than the true value of your talent and skills.

Our concept of bet on yourself is

centered around increasing income. Eliminating the message of save more, spend less and pay down debt. Replace that with increase income, leverage debt and maximize your value

proposition.

It starts with business creation which can be start up, purchase of existing business or purchase of a franchise. All have their advantages and disadvantages. In our consultation we start with an assessment of your existing assets and financial condition. From this work we can identify how to establish a business which will create tax advantaged income, capital appreciation and an exceptional exit strategy which is predetermined in order to accomplish it.

By identifying existing

assets to use in the creation process we can then leverage those assets which will mitigate the risk of failure. Of course, you have read all the statistics of business failure, but I submit that over 75% of those failures were due to poor planning and extremely poor design. Our work together eliminates much of the early risk, while identifying the unexpected consequences of the early solutions. Betting on yourself requires astute vision, full awareness of your belief system and a strong sense of your value proposition.

I have developed a full-service proposition to help any middle-class earner the opportunity of creating financial independence through the Middle Class Millionaire Plan

I challenge you to take 20-30 minutes and have a non-decision-making consultation with me or one of my Financial Concierges. Whatever happens I promise that you leave the consultation better off than when you started.

But before we dive in, let me ask you, have you ever placed a bet before? If so, was it on a sporting event or a casino game? Did you win or lose?

Moving on, a "bet" is essentially a wager or a gambit in the sports betting industry. It refers to the act of placing a bet on a specific outcome of an event, most likely being a sporting event. The term "bet" can be used interchangeably with "wager" or "gamble".

Now, let's talk about the F12bet house of bets and the option "bet". F12bet is a recently-arrived bookmaker in Brazil that offers its clients a variety of games, markets, and promotions. In addition, the code "F12VIP" offers a bonus to those who sign up.

Once registered, users can begin betting on various sports, including, of course, soccer, basketball, tennis, and many more! Besides, they offer live betting (in real-time) and a large number of games!

Lastly, in online sports betting, there are three interconnected concepts behind a "bet": "odds", "handicap", and "rollover". These three terms are explained in the table presented in the References below.
